Industrial cybersecurity

Felipe Hiroshi Watanabe Desenvolvimento de Software LTDA — CNPJ 59.474.541/0001-02

Consider asset inventory, IT/OT segmentation, controlled remote access, change management, recovery and testing according to criticality. Do not connect control systems to the internet without risk assessment. ISA/IEC 62443 is a technical reference; IEC 61508/61511 may apply to functional safety depending on scope. No certification is claimed.
